#### **ARTICLE 7B. SECTION 1. THE CLASSIFICATION PLAN**

The official classification plan for positions in the service of the town shall consist of the classes listed in Schedule A which is hereby made a part hereof.

#### **SECTION 2. THE PAY PLAN**

The official pay plan, when established by vote of the Town, shall consist of the minimum and maximum salaries to be paid to all employees in any position included in the classification plan, as such salaries shall, from time to time, be established by vote of the Town. Said salaries shall be set forth in Schedule B.

#### **SECTION 3. AMENDMENT OF THE PLANS**

The classification plan, or the provisions included herein for the administration thereof, may be amended in the manner provided by law, or in the manner provided by the By-laws of the Town, whichever is applicable. The minimum and maximum salaries to be set forth in the pay plan may be established or changed by vote of the town at a Town Meeting, or as provided by law, whichever is applicable.

#### **SECTION 4. PERSONNEL BOARD**

There shall be a Personnel Board consisting of three members as follows:—the Chairman of the Board of Selectmen or a member designated by him, who shall be a member ex officio and who shall be chairman; the Chairman of the Board of Public Works or a member designated by him, who shall also be a member ex officio; and a third member who shall be a citizen of the town appointed by the Moderator. The first appointment of the third member shall be made forthwith after the effective date of this By-law for a term expiring the following May first, or until his successor is appointed. Thereafter, the third member shall be appointed on or before the first day of May in each year. Said Personnel Board shall have the power to employ and pay an Executive Secretary.

### SECTION 5. CLASS DEFINITIONS

The Personnel Board shall provide, and may amend from time to time, written definitions of the classes in the classification plan, each consisting of a statement describing the essential nature of the work characteristic of positions of the class that distinguished such positions from positions of other classes, with such examples as may be deemed appropriate.

### SECTION 6. INTERPRETATION OF CLASS DEFINITIONS

The definitions of the classes shall be interpreted as descriptive only and not restrictive. The definition for any class shall be construed solely as a means of identifying positions properly pertaining to the class, and not as prescribing what the duties or responsibilities of any position of the class shall be, or as modifying, or in any way affecting, the power of any administrative authority, as otherwise existing, to appoint, to assign duties to, or to direct and control the work of, any employee under the jurisdiction of such authority.

### SECTION 7. RECORDS AND REQUISITIONS

The Personnel Board shall keep such records of all employees of the town, including the name, age, date of employment, Civil Service classification, if any, department in which employed, nature of duties and other information as it deems desirable. All requisitions for persons to fill positions or perform duties classified under the Civil Service law, all requests for transfers, increases in salary, changes in ratings, or other requests made to the Director of Civil Service or the Department of Civil Service shall be cleared through the Personnel Board.

### SECTION 8. ALLOCATION OF POSITIONS TO CLASSES

The Personnel Board shall allocate each position subject to the provisions of this By-law to its appropriate class in the classification plan. Whenever a new position is established, or the duties of an existing position are so changed that, in effect, a new position of a different class is substituted for the old position, the Personnel Board shall allocate such new or changed position to its appropriate class. It shall likewise reallocate any position from class to class whenever it finds such action warranted by reason of error in the allocation then in effect. It shall afford reasonable opportunity to be heard to any employee or appointing authority affected by any allocation or reallocation, upon written request therefor, and may afford such opportunity in the absence of such request.

### SECTION 9. TITLES OF POSITIONS

No person shall be appointed, employed, or paid as an employee in any position subject to the provisions of this By-law, under any title other than that of the class to which the position is allocated. The title of each class shall be the official title of every position allocated to the class for all purposes having to do with the position as such, and shall be used to designate the position in all payrolls, budget estimates, and official records and reports, and in every other connection involving personnel and fiscal processes, but any abbreviation or code symbol approved by the Personnel Board may be used in lieu of the title to designate the class of a position in any such connection.

### SECTION 10. INTERPRETATION OF PAY PLAN

The interpretation and effects of the minimum and maximum salaries at any time hereafter established by vote of the town, and provisions for initial adjustments to the pay plan, shall be included in the votes establishing such salaries.

### SECTION 11. OPERATION OF BY-LAW

This By-law shall be operative only as to employees whose positions are classified hereunder and for which positions minimum and maximum salaries have been established by vote of the town at a Town Meeting.

(Inserted at the request of the Committee on Salaries and Wages.)

Article 10. To see if the Town will vote to amend its By-laws by inserting a new section in Article 1, entitled "Town Meetings" to be known as Section 2A and to read as follows:—

### SECTION 2A

A record of the attendance of Town Meeting Members at all representative Town Meetings shall be made under the direction of the Town Clerk, said record to be available to the public for three years from the date of each meeting.

(Inserted at the request of one hundred (100) registered voters.)

Article 11. To see if the Town will vote to ratify, approve and confirm the action of the Board of Public Works in the sale and delivery by the Board of Public Works of one (1) 1938 International 2-3 Ton Chassis, owned by the Town and in use by the Public Works Department, all in connection with the purchase of one (1) 1948 Ford 2 Ton Chassis for the use

of the Public Works Department; or take any action relating thereto.

Article 12. To see if the Town will authorize the Board of Public Works to sell or otherwise dispose of one (1) No. 4423 Sargent full hydraulic model V plow with wings, owned by the Town and under the control of the Board of Public Works; or take any action relating thereto.

Said salaries shall be set forth in Schedule B.

Section 3. Amendment of the Plans. The classification plan, or the provisions included herein for the administration thereof, may be amended in the manner provided by law, or in the manner provided by the By-Laws of the Town, whichever is applicable. The minimum and maximum salaries to be set forth in the pay plan may be established or changed by vote of the town at a Town Meeting, or as provided by law, whichever is applicable.

Section 6. Interpretation of Class Definitions. The definitions of the classes shall be interpreted as descriptive only and not restrictive. The definition for any class shall be construed solely as a means of identifying positions properly pertaining to the class, and not as prescribing what the duties or responsibilities of any position of the class shall be, or as modifying, or in any way affecting, the power of any administrative authority, as otherwise existing, to appoint, to assign duties to, or to direct and control the work of any employee under the jurisdiction of such authority.

Section 8. Allocation of Positions to Classes. The Personnel Board shall allocate each position subject to the provisions of this By-law to its appropriate class in the classification plan. Whenever a new position is established, or the duties of an existing position are so changed that, in effect, a new position of a different class is substituted for the old position, the Personnel Board shall allocate such new or changed position to its appropriate class. It shall likewise reallocate any position from class to class whenever it finds such action warranted by reason of error in the allocation then in effect. It shall afford reasonable opportunity to be heard to any employee or appointing authority affected by any allocation or reallocation, upon written request therefor, and may afford such opportunity in the absence of such request.

Section 9. Titles of Positions. No person shall be appointed, employed or paid as an employee in any position subject to the provisions of this By-Law, under any title other than that of the class to which the position is allocated. The title of each class shall be the official title of every position allocated to the class for all purposes having to do with the position as such, and shall be used to designate the position

in all payrolls, budget estimates, and official records and reports, and in every other connection involving personnel and fiscal processes, but any abbreviation or code symbol approved by the Personnel Board may be used in lieu of the title to designate the class of a position in any such connection.

Section 10. Interpretation of Pay Plan. The interpretation and effects of the minimum and maximum salaries at any time hereafter established by vote of the town, and provisions for initial adjustments to the pay plan, shall be included in the votes establishing such salaries.

Section 11. Operation of By-Law. This By-Law shall be operative only as to employees whose positions are classified hereunder and for which positions minimum and maximum salaries have been established by vote of the town at a Town Meeting.

## Report of the Board of Selectmen

*To the Citizens of Arlington:*

The Board of Selectmen herewith submits its report for the year ending December 31, 1948.

At the Annual Town Election held on March 1, 1948, Joseph A. Purcell was elected a member of the Board of Selectmen for a term of three years. The Board organized at the first meeting held thereafter with Harold A. Cahalin as its Chairman. During the year, fifty-two regular and eleven special meetings were held.

Detailed reports of the various departments coming within the jurisdiction of the Board of Selectmen can be found elsewhere in this edition of the Town Report and so the Board does not attempt to set forth herein a detailed statement of the volume of business, both routine and special, which came before it during the past year. A brief commentary follows on certain of the more important matters acted upon by the Board.

### FIRE DEPARTMENT

At the Annual Town Election held March 1, 1948, the citizens of Arlington voted acceptance by the Town of the provisions of Section 58B of Chapter 48 of the General Laws, providing for the forty-eight hour week for permanent members of the Fire Department. This necessitated an increase in the personnel of the department of thirty-one additional men.

At a meeting of the Board of Selectmen held on Monday, April 26, 1948, Chief Daniel B. Tierney was retired from active service as a permanent member of the Arlington Fire Department, in accordance with the provisions of subdivision (d) of Section 85E of Chapter 32 of the General Laws, as amended, thus ending a career of over fifty years of faithful and diligent service as a member of the department and as its Chief for many years. During the administration of Chief Tierney, the Arlington Fire Department grew from a small unit to a large and efficient organization which ranks with the foremost departments in the state. The Board of Selectmen extends to Chief Tierney special words of commendation for his long and untiring service to the community and its earnest wishes for many happy years to come.

At the same meeting, Deputy Chief Richard J. Tierney, a brother of retiring Chief Daniel B. Tierney, was appointed Acting Chief of the Fire Department.

## POLICE DEPARTMENT

The matter of traffic congestion in the Business District in Arlington Center has been one of serious concern to the Board of Selectmen for sometime. The volume of traffic passing through this major Business District has increased tremendously in recent years and parking meters had been considered as one method of alleviating this condition. A report was received by the Board from the Special Committee on Parking Meters relative to its study of the various types of parking meters wherein it was unanimously recommended that the Park-O-Meter, so-called, was the meter best adapted for use in Arlington. The Magee-Hale Park-O-Meter Company proposal to furnish three hundred Park-O-Meters, to be paid for by a remittance of 50% of the revenue from the meters until the agreed price has been paid, was accepted by the Board at the meeting held April 12, 1948. These meters have been installed and, in the opinion of the Board, have been favorably received and have been successful in alleviating to some extent the hazardous traffic conditions which had existed, and are proving to be beneficial to shoppers. However, the ultimate solution to the traffic problem in Arlington Center probably rests in a combination of off-street parking areas, parking meters and licensed open-air parking spaces.

Police Lieutenant Daniel P. Barry, one of Arlington's ablest and most beloved public officials, died suddenly on March 24, 1948. Lieutenant Barry had been a member of the Arlington Police Department for almost thirty years and had been very active in recent years in youth work as the Co-ordinator of the Arlington Youth Association and the Auxiliary Police Department. His work in this field had attracted wide attention in other communities in this state and in other sections of the country. The Board of Selectmen extends its sincerest sympathy to his widow and loved ones.

The death of Lieutenant Barry necessitated that requisition be made of the Division of Civil Service for the appointment of a Lieutenant in the Police Department with the request that the examination to be held for this position be open to the permanent employees in the next lower grade. Five of the six Sergeants took this examination on October 16, 1948. An examination for Sergeant, to fill the vacancy caused by promotion of one of their members to Lieutenant, was requested and was held on October 30, 1948. Eligible lists of persons for appointment to either of these positions have not been established as yet.

## VETERANS' HOUSING

The members of the Board have been fully cognizant of the very serious housing shortage and the necessity of finding a solution of this problem in so far as it relates to housing needs for veterans in Arlington. Accordingly, a survey was held on June 3, 1948, from 12 Noon until 9 P.M., at the Town Hall, Crosby and Locke Schools, at which veterans were interviewed and completed questionnaires showing the need for adequate housing. Following study of the information produced by the survey, it was the considered opinion of the Board to call a Special Town Meeting to be held on June 28, 1948, to consider the matter of determining the need for and establishment of a housing authority, as provided under the Veterans' Housing Act (Chapter 200 of the Acts of 1948). Upon authorization of the Special Town Meeting, the Board appointed the following four members of the Arlington Housing Authority to serve until the next annual election: Messrs. W. Dale Barker, who was selected by the other members to serve as Chairman, Myron D. Chace, Hans Tobiason and Harold E. Magnuson. Mr. Torsten H. Reenstierna was selected by the State Housing Board as the fifth member of the Arlington Housing Authority for the term ending July 16, 1951. The Arlington Housing Authority proceeded to organize promptly, have selected a location for a housing project for veterans and are in the process of satisfying the necessary requirements of the law preparatory to starting construction in the near future.

## WELFARE

Despite generally favorable business conditions, a definite trend is apparent toward increased welfare costs to the Town. This is particularly apparent in our Bureau of Old Age Assistance because of new minimum budget allotments which have been established by the State Department of Public Welfare. These payments are mandatory under the provisions of law.

Mr. Clifford W. Cook, Welfare Agent, transferred as of January 1, 1949, to the town of Brookline upon his appointment to a similar position, by the Brookline Selectmen, at a substantial increase in salary. Mr. Cook had been Welfare Agent in Arlington for the past fifteen years and was one of the ablest and most efficient department heads under the jurisdiction of the Board of Selectmen. The Board accepted his resignation with deep regret and extends to him its sincere good wishes for success and happiness in his new appointment.

### EARL A. RYDER

Town Clerk Earl A. Ryder passed away after a very brief illness on November 28, 1948. Mr. Ryder has been Town Clerk for over twelve years and prior to that time had been a member of the Board of Assessors. His death marked the passing of one of Arlington's best known and highly regarded public officials. The sincere sympathy of the Board is extended to his family and loved ones.

### GENERAL

The tenancy of Horace W. Peirce of the premises at 16-18 Mystic Street was terminated on June 30, 1948. The issue of damages relative to the taking of this property by the Town is in litigation and there has been no adjudication of same as of this writing.

Dr. John J. Murphy, Jr., was appointed on June 14, 1948, as Inspector of Animals, succeeding Dr. Chester L. Blakely who had been retired because of superannuation.

At the Special Town Meeting held on December 27, 1948, the Town Meeting voted to accept Section 56 of Chapter 148 of the General Laws providing for the licensing of open-air parking spaces and the Board is of the opinion that such areas will help to alleviate the hazardous traffic conditions described previously in this Report.

Two rooms on the third floor of the Robbins House were made available to the U. S. Government for use by the Selective Service System for a Draft Board covering Arlington and some of the surrounding communities. Quarters have also been provided for the use of the Arlington Housing Authority in the Robbins House.

The Board recognizes that certain departments in the town are badly in need of additional space and improved working conditions and believes that in the near future steps must be taken to correct this situation.

The Board had been in communication with the Metropolitan Transit Authority since March relative to the poor street car service from Harvard Square to Arlington Heights and, as a result of this action, a communication was received from the Metropolitan Transit Authority on October 25, 1948, advising of an arrangement for schedules to be put into effect in the winter timetables to provide in the evening rush hours for the operation of Arlington Heights service, about which the Board complained, to the Bennett Street Carbarn at Harvard Square, in order to ameliorate the delays existent upon

the longer line, from Arlington Heights to Watertown. This new schedule is now in operation and is providing a noticeable improvement in this service.

Mr. James J. Dolan received the permanent appointment of Sealer of Weights and Measures beginning January 1, 1949, succeeding Mr. Herbert L. Hutchinson, who had held this position under a provisional appointment.

### CONCLUSION

The Board wishes to express its sincerest appreciation for the splendid cooperation and efficient service rendered by the heads and personnel of all departments, Boards and Committees under its jurisdiction during the past year.

The Board wishes particularly to express its gratitude for the capable services rendered by our efficient Executive Secretary, James J. Golden, and his assistants, Miss Catherine Harrigan and Miss Evelyn Wiggins. The zeal and diligence exercised by Mr. Golden and his staff have been of great value to us in the performance of our duties.

#### **TRAFFIC SIGNAL DEPARTMENT**

The two men assigned to this work, in addition to the foregoing, prepare paint and letter all signs, repair all damaged or defective equipment, including the installation and maintenance of the traffic light signal system.

Motor vehicle traffic conditions are steadily growing worse as the number of motor vehicles increases. The congestion in our business centers is probably greater than any of the cities and towns of Greater Boston. Routes 2A, 3 and 60 pass directly through Arlington Center which, of course, is the principal reason for such congestion, and has definitely created a hazardous accident condition. There are no off street parking lots for persons desiring to do business with our merchants; therefore, the lack of parking facilities, together with the congestion, has driven our citizens to other communities to do their shopping.

The installation of Parking Meters in June and the change to parallel parking in Arlington Center has definitely relieved the congested traffic condition in this area and has decreased the accident rate by approximately fifty per cent.

I want to again this year recommend that a study be made of traffic conditions in Arlington, especially in Arlington

Center and over our main arteries, with the idea in mind of procuring some long range plan for the rerouting of these through routes and constructing new arteries which will help in the development of our business centers. This, in my opinion, if done properly, will not only alleviate congestion in the business centers but will attract to our town large business concerns which should increase the income from taxes and partially offset the low cost houses whose small income in the form of taxes is immediately used up because of children of school age residing in such houses.

I further recommend that all so-called apartment blocks erected in the future be required to provide at least one off street automobile parking space for each separate apartment in such building. This may be done through a change in the building code or in the town by-laws. Similar ordinances are being adopted by many cities throughout the country.

#### JUVENILE DELINQUENCY

During the past year there were one hundred and sixty-six (166) children, under the age of seventeen years, apprehended by the Department for various crimes, five (5) of which were females, one hundred and forty-eight (148) Arlington children and eighteen (18) Out of Town children. Twenty-four (24) of these children were brought before the Court. The others were taken in hand by the Juvenile Officer, who, through his work with the parents, school, church and the child, endeavored to correct the delinquent habits of the child. In all cases of property damage or larcenies, restitution was made wherever possible to the satisfaction of the injured party.

All members of your Police Department have been diligent in their duties throughout the year, and it is well known by the criminal element that Arlington is a good place to stay clear of. We shall continue to do everything possible to assist the criminal element to retain this feeling.

In the investigation of juvenile crime, police experience has definitely determined that in the vast majority of cases the juvenile's trouble starts, because of the lack of proper parental training and supervision in the home. It has been said that "PARENTS" are the world's most influential professional people, yet never trained for their job. Possessing the biggest responsibility in the world: 1. Producing life; 2. Supporting life; 3. Preparing proper background for impressionable life; 4. By nature the original teachers of all human habits—language—religion—cultural elements—morality—manners, etc.

The actions of the child in almost every case reflects the training or lack of proper training given by the parents. Be-

cause of the failure of so many parents to properly carry out their responsibilities, delinquency in children is a police problem but the elimination or correction of conditions which give rise to it, such as bad home environment, deficiencies in school facilities, lack of properly supervised recreational play centers, is purely a community problem.

In order to combat the problem of delinquency of the children, the Auxiliary Police Department, which was organized for the war emergency, have volunteered to assist the regular police department in their crime prevention program.

Again this year so-called Teen-Age Dances were conducted at the Town Hall for all of the Senior High School pupils and those Arlington youngsters under twenty-one (21), who were out of school. These dances were held on Friday nights and were well supervised under the leadership of Jack Keefe and members of the Arlington Auxiliary Police Association. They have proven a decided success as evidenced by the attendance and lack of crime committed by this age group in Arlington. I strongly recommend their continuance.

In addition to the Friday Night Dances conducted by the Arlington Auxiliary Police Association, they organized and supervised two baseball leagues for all the boys between the ages of ten to sixteen years, with eight teams in each league consisting of fifteen boys on each team. Both Leagues were equipped with full uniforms and all necessary equipment. Baseball, as it was conducted by the Arlington Auxiliary Police Association, under the expert guiding hand of William Sinclair and his committee, proved a decided factor in curbing delinquency in our Town.

The Arlington Auxiliary Police Association has also conducted a very successful Rifle Club with membership made up of approximately one hundred High School students. The instructors in this group, headed by Fred Bodemer, are all members and qualified instructors in the National Rifle Association.

I wish to take this opportunity to thank the many citizens of our town for their very generous monetary as well as moral support in the carrying out of this most worthwhile program. Without your support it could not possibly be so successful.

I consider the Town of Arlington to be very fortunate to have such a group as the Arlington Auxiliary Police give so freely of their time and effort in this most worthy work which has proven such a decided success in curbing Juvenile Delinquency.

The finest cooperation has existed between the Superintendent of Schools, the various principals, and this Department

in the investigation and correction of delinquency. Credit must also be given to the character building organizations, such as, the churches, the Boys' Club, the Boy and Girl Scouts, the C.Y.O. and other organizations who have done yeomen service for the benefit of Juveniles.

#### MISCELLANEOUS DUTIES

This particular report section shows the multiplicity of work performed by the members of the Department.

Take the sick and injured cared for; this shows 267 persons, 2,395 separate cases investigated. There were 116 lost children cared for. In some instances with children three, four and five years of age, they were held at Police Headquarters for hours before parents were aware they were missing.

In addition, investigations were made for several different Federal organizations, many of which overlapped one another. Also many investigations were conducted for various commercial organizations throughout the country. Under the head of MISCELLANEOUS DUTIES can be found an enormous amount of detail work accomplished.

I am deeply grateful to the members of the Arlington Auxiliary Police Association who have never failed to assist the Department wherever their services were requested throughout the year.

To the Town, State and Federal Departments I am deeply grateful for their earnest and kind assistance, especially grateful to the Members of my own Department. I sincerely appreciate the wholehearted attention to duty exercised by all Members of this Department during the year. It was through their diligent attention to their many duties that Arlington continues to be comparatively free from crime and a good place in which to live.

In closing I wish to express my sincere appreciation to your Honorable Board, Officials of the Town Government, as well as the Citizens of Arlington for their splendid assistance and cooperation during the year.

Respectfully submitted,

ARCHIE F. BULLOCK,  
*Chief of Police.*

## Report of the Fire Department

Honorable Board of Selectmen  
Arlington, Massachusetts

Gentlemen:

I have the honor as Acting Chief to present the Annual Report of the Arlington Fire Department for the year ending December 31, 1948.

Daniel B. Tierney, Chief of the Department since 1923, retired because of the Compulsory Retirement Law on April 26, 1948, after fifty-one years a fireman.

He began his life long career in 1896 when the then existing Board of Fire Engineers appointed him a Substitute Callman. In 1897 he was made a Regular Callman and in that same year was appointed Permanent Fireman assigned as Driver of Hose 2 stationed at the old Highland Fire House. In 1902 he was advanced to Lieutenant and to the position of Second Assistant Chief in 1922.

On May 1, 1923, Daniel B. Tierney was appointed the first permanent full-time Fire Chief with Life Tenure of Office. In 1928 he reorganized the Department changing it from one of Call Firemen to a department of permanent firemen.

During his years as Chief, three beautiful stations were constructed which are conceded as ideal for fire department purposes. With his able leadership, the Department progressed rapidly to a high standard of efficiency and is recognized as one of the best by fire department officials. A real fireman, one intensely active in matters relating to fire fighting and fire protection, Chief Daniel B. Tierney will be long remembered as Arlington's great Fire Chief.

### MANUAL FORCE

The normal permanent force consists of ninety-one men: the Chief, three Deputy Chiefs, ten Captains, one Inspector-Fireman who is in charge of the Fire and Police Signal System, eight Lieutenants, and sixty-eight Privates; also a Department Surgeon, Dr. Edward W. Feeley, and a Department Secretary, Anna B. Hurley.

## PROMOTIONS

March 28, Captain Charles J. Flynn was advanced to Deputy Chief to fill the vacancy caused by the retirement of Deputy George W. Corbett; Captain Richard J. Tierney was advanced to Deputy Chief filling the vacancy caused by the retirement of Deputy John M. Tierney.

April 26, Deputy Chief Richard J. Tierney was appointed Acting Chief of the Department by the Honorable Board of Selectmen.

April 26, Captain Thomas H. Egan was advanced to Deputy Chief (Temporary).

June 20, the following were made Permanent Captains: James A. Doherty, Anthony P. Lopez, Francis M. Doherty, Thomas Burchill and Charles J. O'Neil.

July 25, the following Privates were advanced to Lieutenants (Temporary): George J. W. Kenney, John M. Fahey, Albert G. Lennon, Henry T. Scannell and Francis R. Donahue.

November 28, Captain Bartholomew J. McGreevy was advanced to Deputy Chief (Temporary).

## APPOINTMENTS

Appointed eight permanent firemen:

January 18, Vincent J. Zaloga (replacement).

May 2 (for 48-Hour Week) Alton F. Young, Harold W. Pompey, John C. Dudley, Donal Corbett and Joseph W. White.

June 26, appointed twenty-six provisional firemen pending the establishment of a Civil Service list.

November 14, Francis L. Ryan (replacement).

October 3, Arthur J. O'Connell (replacement).

## FORTY-EIGHT HOUR WEEK

At the 1948 March Town Election by a vote of 5326 for, and 3934 against, Chapter 48, Section 58B of the Massachusetts General Laws (48-Hour Work Week for Firemen) was accepted.

Accordingly, on June 6, 1948 the shorter work week was established for the firemen. This necessitated the employment of thirty-one additional men, five of whom were per-

manent appointments and twenty-six on a provisional basis pending a Civil Service entrance examination for firemen. One hundred applications were received.

The 48-Hour Schedule required considerable reorganization, and Captain Charles J. O'Neil was appointed Personnel Officer. This system has worked smoothly and to the satisfaction of all concerned.

### APPARATUS

In active service are: Engine 1 (1926), Engine 2 (1929), Engine 3 (1927), Engine 4 (1931), Ladder 1 (1937), Ladder 2 (1925), Special Service Unit (1945), Chief's Car (1948) and Deputy's Car (1946). Two 600-gallon trailer pumps are in reserve for emergency use.

The Quintuplet Truck, contracted for June 3, 1946, at a cost of \$19,000, was delivered November 26, 1948, and will replace Engine 3 at Park Circle Station. The present value of this new unit is \$36,000. It is known as Ladder 3.

Due to the age of apparatus, having twenty or more years of service, it is planned to annually overhaul each unit beginning with Engine 4 in 1949.

### RESPONSE

The Department responded to 710 calls, of which 149 were Box Alarms, 461 Still Alarms (telephone calls), and 100 Mutual Aid (out-of-town calls). There were 985 calls in 1947.

A summary of alarms revealed that the greatest number of such calls occurred in the month of April; that more occurred on Saturdays than any other day of the week, and also that of these calls the largest number occurred between the hours of 10:00 and 11:00 a.m. and between 4:00 and 5:00 p.m.

The Special Service Unit responded to sixteen emergency calls for use of the Resuscitator and the Inhalator to supply Oxygen to persons who were in critical condition.

Forty-four false alarms were sounded compared with forty-two in 1947.

### FIRE LOSSES

Fifty-eight losses occurred, five of which accounted for \$15,392.93 of the entire yearly loss.

The total assessed value of property endangered, insurance thereon, loss sustained, and the insurance paid are as follows:

	Assessed Value	Insurance	Damage	Insurance Paid

October 23, 1948 at 5:31 p.m. The Department responded to a fire in the Bayburn Dry Cleaning Plant, 1 Broadway. The interior of the fur vault with about ten thousand garments stored therein, both fur and fabric, together with a quantity of rugs and woolen blankets of value, were heavily damaged. These were in a reinforced concrete vault with no openings other than the vault door located below street level.

The storage vault had no automatic fire protection or signals of any kind other than a burglar alarm.

The fire was investigated by Inspectors from the Office of the State Fire Marshal and the cause of the fire is still undetermined.

For responding so promptly to our request for use of its demolition unit for purposes of ventilation, the Public Works Department is to be commended for the timely and valuable assistance at the Bayburn Fire.

#### REPORT OF DEPARTMENT SURGEON

Dr. Edward W. Feeley, Department Surgeon, investigated cases where firemen failed to report for duty because of sickness and submitted a written statement as to their physical condition.

The most important duties during the year consisted of complete physical entrance examinations for thirty-eight new men. In addition, there were fifteen office calls, seventeen house calls, three fire station calls and response to many alarms.

#### FIRE PREVENTION

Each month firemen inspected all places of business and public buildings, a total of 13,627 inspections.

Eight fires occurred in these regularly inspected places, seven causing a loss of \$1,798.44 and one (Bayburn) a loss of \$316,828.

## INSPECTION OF DWELLINGS

The Twenty-fifth Annual Voluntary Inspection by the firemen of the cellars of each home in Arlington was made during Fire Prevention Week, October 3-9.

Eighteen fires occurred in residential cellars as compared with fourteen in 1947.

Through this routine inspection, faulty conditions which were found were corrected and many fire hazards were eliminated which otherwise could be a source of potential trouble.

The following is compiled as a result of Dwelling House Inspections:

Total houses .....	8,326
(In 1924 for the first House Inspection there were 3918 houses in Arlington)	
Single houses .....	5,177
2-apartment houses .....	2,970
Of more than two apartments.....	179
Vacant apartments .....	—
Combustible roofs .....	2
Houses with power oil burners.....	4,920
Houses with range oil burners.....	3,764

## INSPECTIONS

Dwellings .....	8,326
Mercantile .....	13,627
Power oil burners .....	385
Range oil burners .....	137
Total inspections .....	22,475

## FIRE DRILLS IN SCHOOLS

The annual fire drill under the supervision of the Officers of the Department was conducted in public, parochial and private schools.

A record was made of the number of classrooms, pupils, exits used and the time required to vacate each building, a copy of which was sent to the School Department.

November 19, conducted Fire Drill at Symmes Arlington Hospital and instructed the personnel in the methods of evaca-

tion of patients and the procedure of calling the Fire Department.

### EXTINGUISHERS

Four hundred and sixty-seven fire extinguishers were recharged (no fee) in public buildings, schools, garages and factories.

### TRAINING OF FIREMEN

In providing additional men for the 48-Hour Week, it was necessary to train those men who reported for duty having no knowledge of the work they would be called to perform. A training program was organized two weeks previous to June 6 and with the generous cooperation of our Officers, the group received preliminary training at the Department Drill School. This proved quite beneficial. When these men receive permanent appointments they will be given a full sixty-hour course in practical fire fighting evolutions.

### RECOMMENDATIONS

On December 27, 1948 at the Special Town Meeting, the Town Meeting Members voted against the passage of

### ARTICLE 17—APPOINTMENT OF COMMITTEE—SITE FOR A FIRE STATION IN EAST ARLINGTON.

Such additional fire protection for East Arlington was asked since two Engine Companies quartered at Headquarters Station, Arlington Center, cover a cross section of the Town from Mill Street and Jason Street to the Cambridge, Somerville, Belmont, Winchester and Medford Lines, an estimated population of approximately thirty thousand. Additional fire protection should be provided in the near future since these two units have too many potential customers.

Budget—For the year 1949 I recommend that \$309,251.88 be appropriated.

### CONCLUSION

To the Honorable Board of Selectmen my gratitude for their generous support and personal interest in the affairs of the Department; to its alert Secretary, James J. Golden, my deep appreciation for helpfulness; to James M. Keane and staff

for kind assistance, to the Police Department ever ready to cooperate, to the Auxiliary Firemen always standing by to respond to any emergency, and to the Officers and Men in the Fire Department for splendid and loyal performance of duty, my thanks and sincere gratitude.

Respectfully submitted,

RICHARD J. TIERNEY,  
Acting Chief, Fire Department.

## Report of the Fire and Police Signal System

Honorable Board of Selectmen  
Arlington, Massachusetts

Gentlemen:

I have the honor as Acting Superintendent of the Fire and Police Signal System to present the Annual Report for the year ending December 31, 1948.

### FIRE ALARM

Seventeen open circuits occurred in the Fire Alarm System when pedestals were struck by automobiles, when aerial lines were broken and crossed by Edison lines, and by ground in underground cables.

July 29, Testing Engineers from the Simplex Wire & Cable Company began testing cable on Massachusetts Avenue from Schouler Court to Park Avenue, and splices were made over at Hobbs Court, Forest Street and Daniels Street. The test ended December 1, a report to be filed later.

October 19, employed two men (temporary) to install new signal boxes and repair underground cable on Massachusetts Avenue. Due to budget limitations this work was discontinued November 26.

Installed lines and underground cable for Fire Alarm Box 195, Silk Street-Michael Street; for Fire Alarm Box 8631, Golden Avenue-Corey Lane; and for pedestal for Fire Alarm Box 194, Broadway-Sunnyside Avenue.

November 8, installed Fire Alarm Box 139, Broadway-Oxford Street.

November 9, replaced Fire Alarm Box 245 (Sector) with a Threefold Peerless Succession Box.

November 15, installed Fire Alarm Box 423, Pleasant Street-Peabody Road.

### POLICE SIGNAL SYSTEM

Police circuits were interrupted by ground in underground cable and aerial lines in trees.

August 18, relocated Police Box 321 at Warren Peirce Playground to conform with new fence line.

October 1, installed Police Box 351, Pine Ridge Road-Spring Avenue.

November 5, installed Police Box 126, Chapman Street-Devereaux Street.

### SPECIAL CALLS

7 persons admitted to their homes  
26 flooded cellars pumped out  
7 transfers made of lines to new poles

September 24, the Howard Clock Company began repairing the Town Clock in the steeple of the Unitarian Church, Massachusetts Avenue-Pleasant Street. Replaced north, south and west dials, refinished east dial and installed new numbers and hands. The work was completed October 20.

December 13, installed Christmas decorations on Town Hall and Tree at Monument Park.

### APPROPRIATION

1948 Appropriation .....	\$8,335.64
Expended .....	8,255.16
Balance .....	\$80.48

### RECOMMENDATIONS

For the year 1949 recommend an appropriation of \$22,384 which includes the employment of one permanent maintenance man, also the purchase of twelve fire alarm boxes, two police boxes and cable construction on Pleasant Street and Highland Avenue.

Recommended the employment of a man to be trained as signal maintenance man to help Assistant Superintendent, Lester W. Cameron. The Fire and Police Signal System has expanded in proportion to the growth of the Town and now it is beyond the efforts of one man to maintain the System efficiently. The Signal System is really the heart of the fire department service and must be kept in first class working order by routine tests of wiring, installations and appliances.

The need for additional help became acutely apparent in July 1948 when Mr. Cameron was unable to report for duty because of injury. It was therefore necessary to call on the Town of Belmont for assistance when a breakdown occurred in our Signal System. Steps should be taken to provide full protection for future emergencies.

### CONCLUSION

To Assistant Superintendent of the Fire and Police Signal System, Lester W. Cameron, for his untiring efforts day and night in effectively maintaining the Signal System even under adverse conditions, my sincerest thanks.

Respectfully submitted,

RICHARD J. TIERNEY,  
Acting Superintendent  
Fire and Police Signal System.

## Report of Arlington Housing Authority

January 18, 1949.

The Board of Selectmen  
Town of Arlington  
Arlington 74, Mass.

Gentlemen:

In accordance with the requirements of Section 3 of Article 3 of the Town's By-laws, the Arlington Housing Authority is pleased to submit their first annual report covering their activities and progress during the past five and a half months.

A Special Town Meeting on June 28, 1948, authorized the Housing Authority, and your four appointments were made to us July 12, 1948. On July 16, 1948, the State Housing Board designated the fifth member, Mr. Torsten H. Reenstierna.

With complete appreciation and understanding of the responsibility and trust which has been imposed in the Authority, the members met on August 2, 1948, and adopted the by-laws and passed the necessary resolutions for organization. Regular weekly meetings have been held on Mondays, and will continue to be held, in the accommodations at the Robbins House as provided by the Town.

Considerable time was devoted to the selection of possible development sites with the guidance of a State Housing representative. Sufficient progress was made to permit the completion and filing with the State Housing Board of the so-called Part I of the Application for Financial Assistance for the proposed housing development of approximately 100 units. At the direction of the State Housing Board, the Arlington Housing Authority prepared an amended application increasing the size of the proposed development permitting the erection of 124 units. Official confirmation of the State Housing Board's approval of this amended application was received on October 25, 1948, bearing certain qualifications and contingencies which your Board fulfilled. The site approved is in east Arlington bounded by Fremont and Gardner Streets.

Many inquiries were received from architects interested in our project. After careful consideration of these applications, Harold C. Knight of Arlington, associated with Fay, Spofford & Thorndike, engineers, of Boston, was selected as the architect for the project. This was accomplished by November 1,

1948, and John O. Parker, Esq., of Arlington, was engaged as legal counsel for the Authority. Both appointments were subsequently approved by the State Housing Board.

Frequent meetings were held by the Arlington Housing Authority representatives with various State Housing authorities for the purpose of hastening the preparation of Part II as required by the State in our Application for Financial Assistance. Part II was completed by the Arlington Authority assisted by the architect and engineer and filed with the State Housing Board under date of December 17, 1948. We received the approval of the State Housing Board of our application under date of January 12, 1949, so that we can now expedite the necessary financial arrangements and detailed construction drawings all of which are necessary for the completion of this project.

The Authority is sincerely appreciative of the cooperation and assistance which the members of the Arlington Joint Board have given to the Arlington Housing Authority in the preparation of the details required by the State.

Very truly yours,

W. DALE BARKER, *Chairman*  
MYRON D. CHACE,  
HAROLD E. MAGNUSON,  
TORSTEN H. REENSTIerna,  
HANS TOBIASON,  
Arlington Housing Authority.

## Report of the Joint Board of Selectmen and Board of Public Works

The Forty-Fifth Report of the Joint Board of Selectmen and Board of Public Works for the year ending December 31, 1948, is submitted herewith, in accordance with the requirements of the Town's By-Laws.

At the Annual Town Election, Mr. Joseph A. Purcell and Mr. John L. Murphy were elected for terms of three years as members of the Board of Selectmen and of the Board of Public Works, respectively, and by virtue of their elections, both served as members of this Joint Board. The Board organized at the first meeting held thereafter with Mr. Harold A. Cahalin as Chairman and Mr. Thomas J. O'Neill as Vice Chairman.

The policy of meeting semi-monthly, except during July and August, was continued. In addition, the Board held eleven special meetings during the year.

Elsewhere in the Town Report detailed summaries are given of the activities of the departments under the jurisdiction of the Joint Board. The information contained therein is further amplified by the following facts:

### STREETS

The Board, after careful study and consideration of all factors, was again obliged to postpone the plans it had scheduled through advanced planning for new street construction in 1948. Other than in 1946, during which year seven streets were accepted and constructed, the Town has not undertaken a street construction program since before the war.

The southerly side of Massachusetts Avenue, from Academy Street to Pleasant Street, was reconstructed and two sections of Mystic Street, from Massachusetts Avenue to Summer Street and from a point near College Avenue to the Winchester line, were resurfaced during the year, under the provisions of Chapter 90 of the General Laws. The State and County participated with the Town in the cost for these improvements, the State having allotted the sum of \$20,000. on condition that the County and Town each contribute \$10,000. The details thereof appear in the Report of the Board of Public Works.

Request has been made by the Joint Board of the State and County for projects to be considered for 1949 Chapter 90 allotments, as follows:

Bituminous concrete surfacing of Massachusetts Avenue, from east of Paul Revere Road to the Lexington line .....	\$10,875.
Bituminous concrete surfacing of Lake Street, from Concord Turnpike to the B. & M. R. R. crossing .....	\$14,000.
Bituminous concrete surfacing of Broadway, from Massachusetts Avenue to Bates Road ....	\$14,125.
Bituminous concrete surfacing of Massachusetts Avenue, from Academy Street to Mount Vernon Street .....	\$14,425.
Maintenance of Chapter 90 roads .....	\$3,000.

#### SIDEWALKS AND EDGESTONES

Competitive bids were received by the Board for the reconstruction of sidewalks and the installation of granite edgestones, under the provisions of law authorizing the assessments of betterments. A contract for a portion of the work, amounting in the aggregate to \$8,564.14, was awarded to the low bidder, Corcoran Bros. Construction Service of Cambridge, the balance of such work amounting to \$11,513.72, was undertaken by the Town's Public Works Department.

#### STREET LIGHTING

The street lighting schedule was continued as in previous years and additional lighting was provided on public and private ways where deemed necessary.

Arrangements were completed for the relighting of Mystic Street, from Massachusetts Avenue to the Winchester line. However, the lack of certain of the materials has necessarily deferred execution of the project until the early part of the coming year.

#### BOARD OF SURVEY PLANS

The Board, sitting as the Board of Survey, held public hearings and approval was given to the plans of the following streets and subdivisions:

Mary Street—a continuation of way extending from Littlejohn Street to Wilson Avenue.

Mott Street—a continuation of way extending from Littlejohn Street to Wilson Avenue.

- Wilson Avenue—a continuation from end of way extending to Concord Turnpike.
- Sunnyside Avenue—a continuation of way from Fremont Street extending northerly about 1,000 feet.
- Woodside Lane—change of grade of a portion of the way from Oak Hill Drive extending 245 feet northerly.
- Woodside Lane—a continuation from end of way extending to Brattle Avenue.
- Vista Circle—a new way from Woodside Lane extending southwesterly about 440 feet.
- Elm Road—a new way from Woodside Lane extending to Vista Circle.
- Gardner Street—a continuation of way extending from Fremont Street to Decatur Street.
- Fremont Street—a continuation of way extending from North Union Street to Gardner Street.

#### ITEMS OF GENERAL INTEREST

Petitions were received during the year from the Boston Edison Company, New England Telephone and Telegraph Company and Metropolitan Transit Authority, for the location, relocation, alteration in and transfer of locations of poles, conduits and manholes, upon or under the surface of public ways of the Town. Hearings were held when required by law and the necessary orders adopted.

Permission was granted the Arlington Gas Light Company to extend gas main on Dundee Road.

#### CONCLUSION

The Board is pleased to acknowledge gratefully the courtesy and cooperation of other Boards and appointed committees and to express appreciation to the entire personnel of departments under its jurisdiction for their conscientious and efficient work during the year.

Respectfully submitted,

HAROLD A. CAHALIN,  
JOSEPH PETERSON,  
JOSEPH A. PURCELL,

## Report of the Town Counsel

Honorable Joint Board of Selectmen  
and Board of Public Works,  
Robbins Memorial Town Hall,  
Arlington, Massachusetts

Gentlemen:

I herewith submit my report for the year 1948 in compliance with Section 3 of Chapter 3 of the By-Laws of the Town.

There have been fourteen accident claims against the Town this year. Two have been settled as authorized by the Selectmen, four have brought suit, and eight are in abeyance. Of the previous year's claims and suits, eight were abandoned by the claimants without suit and one at the time it was reached for trial, and one was settled as authorized by the Selectmen. There have been no verdicts against the Town.

There was one contract claim against the Town which was compromised by the plaintiff accepting the original offer made by the Town in accordance with the contract price, no extra amount being paid. There were seven claims against third persons for damages to property of the Town, and one held over from previous years. Seven of these have been collected in full and one is pending.

The claim of Pauline B. Crosby for damages for the taking of her land for school purposes was compromised as authorized by the Town Meeting and the Board of Selectmen.

There were two cases before the Board of Tax Appeals, and the position of the Board of Assessors was defended. There were five cases before the Emergency Housing Commission, and the position of the Board of Appeals was defended. There were two hearings before the Outdoor Advertising Authority, and the position of the Inspector of Buildings and Board of Selectmen was defended.

Substantial amounts of money for aid rendered by the Board of Health and by the Symmes Arlington Hospital have been collected and turned over to the Town Collector.

The Town Counsel has been available at regular meetings of the Board of Selectmen and the Board of Public Works, has rendered opinions as requested by other boards, departments, committees and officers, has attended hearings at State

Boards and Commissions, and has been vigilant in all other matters affecting the interests of the Town.

For the kind consideration and cooperation extended to me by all the officials of the Town during the past year, and especially to the Board of Selectmen and Board of Public Works. I desire to record my sincere appreciation.

Respectfully submitted,

RUSSELL T. HAMLET,  
Town Counsel.

## Report of the Board of Health

In accordance with the Town By-Laws, the Board of Health herewith submits its annual report for the year ending December 31, 1948.

At the Annual Town election held on March 1, 1948, Dr. Carl E. Barstow was elected a member of the Board of Health for a term of three years. Dr. Barstow qualified and was sworn to office by the Assistant Town Clerk March 2, 1948.

At a special meeting March 3, 1948, the Board met and organized for the year as follows:

Ernest R. Brooks, D.M.D., Chairman

John S. Crosby

Carl E. Barstow, M.D.

The Board meets the first Monday of each month.

The Board of Health participated in the East Middlesex County Mosquito Control Project for the fourth consecutive year. The results that are obtained from membership in this project are so favorable, that the Board recommends that this project be continued.

Spy Pond and the Arlington Heights Reservoir were treated with copper sulphate at intervals during the summer in an attempt to control the growth of algae in these bodies of water.

Inspections and investigations were made under the direction of the Board throughout the year as required. Services of the Agent, Milk Inspector, Physician, Bacteriologist, Dentist and Nurse were performed in accordance with their various offices. Statistical reports of the activities of each of these employees are appended.

At the Diphtheria Inoculation Clinics held in the Fall, forty-six children completed the course for Diphtheria Immunization. In the light of the increased incidence of this disease in Arlington during the year the Board recommends that parents have their children immunized against diphtheria either by their physician or at the Diphtheria Clinic which is conducted under the direction of the Board of Health annually in the Fall.

At the Spring Clinics for vaccinating dogs against rabies 1,006 dogs were treated free of charge.

Licenses and permits as required by statute law and by the regulations of the Board of Health were issued.

Statistical forms and various reports are appended.

Respectfully submitted,

ERNEST R. BROOKS, D.M.D.,  
CARL E. BARSTOW, M.D.,  
JOHN S. CROSBY,

*Board of Health.*

## Report of the Planning Board

The Planning Board submits herewith its report for the year ending December 31, 1948.

At the annual town election in March, 1948, Mr. Charles H. Bowker was re-elected for a 3-year term. The Board subsequently organized with Mr. Harvey C. Abbott as Chairman and Mr. John O. Parker as Secretary.

Much to the regret of the Board, Mr. S. P. Basmajian found it necessary to resign as a member of the Board on December 12, 1948. Mr. Basmajian had given unstintingly of his time and energy for the best interests of the Town for more than 12 years in this capacity, and was a valuable member of the Board. Until his resignation, Mr. Serovp P. Basmajian continued to represent the Board on the "Advanced Programming and Budgeting Committee."

As in the case of the majority of cities and towns in the Commonwealth, the traffic problem in Arlington has become increasingly acute. The Board's study of this problem has served to indicate the far-reaching effects of unsatisfactory traffic and parking conditions on the prosperity and well-being of the town.

After considerable thought and study the Board realized the necessity for obtaining the assistance of a professional planner. Accordingly, Mr. John T. Blackwell of Boston was engaged to act in this capacity. Mr. Blackwell has already completed a preliminary survey of the problem, particularly as it affects Arlington Center, and the Board intends to do everything possible to arrive at a practical solution of this matter.

As indicated in last year's report, the Board expects to recommend to the annual town meeting in March, 1949, the revision and clarification of certain portions of the Zoning By-Law.

During the year, the Board made recommendations to the Town Meeting concerning four changes in the Zoning map. One of these involved an area on the Concord Turnpike at Appleton Street which it was proposed to rezone from Residence A to Business A. This change was not recommended by the Board. Another concerned the deepening of the Business A district in the vicinity of 51 Mystic Street. The third involved the rezoning of an area in the vicinity of North Union,

Fremont, and Gardner Streets from Residence B to Residence C. This was requested by the Arlington Housing Authority in order to facilitate the construction of multiple unit rental housing for veterans. The fourth involved the rezoning of an area in the vicinity of River, Warren and Decatur Streets from Residence B to Residence C. The Board recommended that approval be given to the last three changes as requested. The action of the Board was approved in all instances by the town meeting.

A member of this Board attended the annual meeting of the State Federation of Planning Boards.

The Board continues to exchange information with the State Planning Board.

Except for the vacation period, the Board has held meetings almost weekly throughout the year.

The Board extends its appreciation to the Board of Selectmen and other town boards and department heads for their kind co-operation and assistance throughout the year.

Respectfully submitted,

HARVEY C. ABBOTT, Chairman,  
JOHN O. PARKER, Secretary,  
HERBERT N. DUTCHER,  
CHARLES H. BOWKER.

## Report of Park Commission

The Board of Park Commissioners herewith submits its report for the year ending December 31, 1948.

At the Annual Town Election held on March 1, 1948, Everett J. Henderson was re-elected a member of the Board of Park Commissioners for a term of three years. The Board organized on Monday, March 22, 1948, with Edward D. Buckley as Chairman.

### RECREATION

The following programs with a brief description of these activities were conducted by the department during the year.

**PLAYGROUNDS.** A daily average of 1,900 children participated in this program on fourteen playgrounds from July 5, 1948, through August 27, 1948. Games and crafts were available to all. Special events such as costume, Doll and Pet Shows, Doll Carriage and Bicycle Parades, Weenie Roasts, Field Days, Amateur and other contests were conducted weekly on the various playgrounds.

The grand finale of the playground program was the presentation of "Playground Musical" at the Hardy School. "H. M. S. Pinafore", "Minstrel Show" and other plays adapted for children were presented to a large audience of parents and friends. Rehearsals were held daily at the playgrounds and the final efforts of the children were well received by a very appreciative audience.

**SWIMMING.** A weekly average of 9,000 people supervised by lifeguards and matrons enjoyed the facilities of Reservoir Beach from June 13, 1948, to September 6, 1948. On several occasions during this period the beach was so heavily attended that our facilities were dangerously overloaded.

More than 1,000 youngsters and adults participated in the swimming classes conducted daily at the beach. Our own instructor was assisted for a two-week period by an instructor provided by our local Chapter of the American Red Cross. The large number of children who participated in our two Swim Meets is ample evidence of the good work accomplished by the program this year.

A swimming team of Arlington youngsters was formed during the beach program and competed successfully in sev-

eral meets conducted by the New England Amateur Athletic Union.

Approximately forty girls are attending a swimming class one night per week during the Winter months at the Somerville Y. M. C. A. Our instructor has received excellent co-operation in the formation and conduct of this program from the staff of the girls' Physical Education Department of the High School. A swimming team and a Water Ballet group are being formed during these classes.

**BASEBALL.** A total of twenty-two teams were represented in our Midget, Junior and Senior baseball leagues. Each team played two games per week. Boys ranged in age from nine to sixteen.

A baseball clinic for boys of Junior High and High School age was conducted on Saturday mornings during the Spring by our School Baseball Coaches. This program afforded the youngsters an opportunity to learn the rudiments of baseball.

Scouts of the Boston Braves conducted a two-day baseball school at Spy Pond Field for athletes of Arlington and other nearby communities. Three boys from Arlington were chosen from almost one hundred athletes to play in an All Star game at Braves Field under floodlights. As a result of the school several athletes will receive the attention of these scouts in future years as possible major league prospects.

**SOFTBALL.** Fourteen teams entered the adult softball league. The league almost doubled its size in one year. Competition began May 3, 1948, and continued through August 19, 1948, with each team playing two games weekly throughout this period. There was considerable interest in the league as evidenced by the crowds in attendance at all games.

**BOWLING.** Two adult men's bowling leagues with eight teams in each league, bowl on Tuesday and Thursday evenings at local alleys. League activity begins in September and is climaxed by a bowling banquet in April of each year.

**TENNIS.** Approximately 50 children of Junior High and High School age attended our Tennis School conducted on Saturday mornings during the Spring and Fall at Spy Pond Field.

**BASKETBALL.** A program is conducted on Saturday mornings during the season at the High School and Junior High East gymnasias for boys of Junior High School age. This program is also conducted daily during the Easter and Christmas vacation periods.

An adult league of six teams plays every Monday evening at the High School gymnasium.

A new High School league of eight teams was formed this year and games are played every Friday evening at the High School. All eight teams are representing various church youth groups in the community.

GOLF. This program offers a course of four lessons by a golf professional to adults of the community. Four classes with forty-eight adults participating are held weekly. A waiting list has been established for those desiring to enter the school.

BADMINTON. This program is conducted on Tuesday and Thursday evenings at the High School. Equipment and instruction in this game are provided for all participating in this program.

BAND CONCERT. A band concert conducted by the Arlington Academy of Music and sponsored by this department was held at Linwood Street Playground and attended by almost 1,000 people. This tremendous display of interest in outdoor concerts has convinced us that several concerts, if possible, should be scheduled during the Summer season.

FIELD HOCKEY. A Town Field Hockey Team was formed this Fall of High School graduates and will be sponsored jointly by this department and Misses McCarthy and Garrity of the High School teaching staff in the Boston Field Hockey League next year.

A field hockey area was established at Robbins Farm Playground for the use of the High School and Junior High School field hockey teams. Since no suitable field was available to them the department offered the use of this area and maintained the field for them during the season.

SKATING. Areas for skating were maintained at Menotomy Rocks and Meadowbrook Parks and Mill Pond. The above areas were also illuminated for night skating. Two hockey rinks were operated during the season.

Permits were issued by the department throughout the year for the use of all outdoor and indoor recreational facilities. The department throughout the year attempted to assist in every way possible the many organizations which sponsor and conduct programs of recreation.

#### MAINTENANCE AND DEVELOPMENT OF AREAS

ROBBINS FARM. A children's play area and a baseball diamond were opened to the public this Spring. Swings and

teeter boards were transferred from Brackett School Playground and new equipment including a slide, merry-go-round, horizontal ladder and a drinking fountain was installed. A horseshoe area of four courts surrounded by spectator benches was also completed. A large area was prepared for seeding next Spring. A portion of the unfinished area was brought to partial grade and present plans include its completion next year.

**SUMMER.** A baseball diamond was prepared and opened to the public this Spring. Benches for both players and spectators were also created.

**LINWOOD.** The ever increasing popularity of this Playground necessitated the expansion of the children's play area. Baby swings, a slide, merry-go-round and a horizontal ladder were added to the play equipment and a four foot chain link fence was erected around the area. A fireplace, picnic table and additional benches were installed to accommodate the crowds.

**NORTH UNION.** A six foot chain link fence was erected along the Broadway boundary of the area. Several benches and a crafts table were installed. An architect was engaged to design a combination shower room and sanitary building for this playground.

**WALDO.** A crafts table and a horizontal ladder were erected.

**CEMETERY.** A slide, merry-go-round and crafts table were installed to augment the equipment already in use at this area.

**ETHEL WELLINGTON.** A four foot chain link fence was erected along one side of the playground. A merry-go-round and crafts table were added to the equipment.

**FLORENCE.** A six foot chain link fence was erected along the Renfrew Street boundary. A merry-go-round, horizontal ladder, crafts table and several benches were also installed.

**MENOTOMY ROCKS PARK.** Land donated to the Town by Jackson W. Osborne at the Jason Street entrance to the park was brought to grade and seeded. Eight floodlights on three poles were erected for night illumination of the pond during ice skating season. A fireplace was erected to improve the picnic area.

**RESERVOIR BEACH.** The construction of a fireplace completed the picnic area. Several benches were added in order to accommodate the large crowds.

THORNDIKE. The unfinished portion of the original playground was developed this year. The department graded, loamed and seeded approximately 94,500 square feet of land. A considerable saving to the Town was effected by using a peat loam located at the playground. A portable grandstand with a seating capacity of 350 was purchased for this area and will be erected in the Spring. This grandstand was used this Fall at Warren A. Peirce Field.

WARREN A. PEIRCE. Approximately 400 feet of seven foot chain link fence was taken down and relocated. An additional 450 feet of new fence was erected to completely enclose the area. The visitors stands were dismantled and re-erected in the end zones of the football field. A new steel portable grandstand 320 feet long, 15 rows high and containing 3,000 seats was erected along the west side of the field. An asphalt walk was installed at the main entrance into the field. The additional practice area obtained by these improvements was graded, loamed and seeded. An architect was engaged to design a sanitary building for the field.

MILL POND. This area was cleared of brush and debris and then flooded for a skating area. Floodlights were installed for night illumination during the skating season.

MEADOWBROOK. Approximately three acres of swamp were cleared of bullrushes, a dam erected and the area flooded for skating. Floodlights were also erected for night skating.

Flower beds were located on several Islands to add color to the main approaches into the Town. Several new beds were added this Fall.

Baseball, Softball, Football and Field Hockey areas were marked with lime whenever a permit was issued for their use. The daily use by organized groups of our baseball and softball fields was so heavy that these areas were marked almost every day.

All improvements except the erection of chain link fences were accomplished this year by our own maintenance crew. Equipment recently purchased by the department and augmented by the heavy equipment of other town departments has allowed us to accomplish these improvements at minimum cost.

## RECOMMENDATIONS

Facilities at Reservoir Beach were very heavily taxed again this year. The heavy demands are due to several causes among them being hot weather, a good program of instruction and capable supervision. The principal cause, however, for these crowds is the large number of people from other communities who come to the beach. Many beaches in other communities have been closed the last two years because of polluted water and as a consequence our beach has become very popular.

We are considering the possibility of restricting the beach to residents of Arlington only. Over 50% of the daily crowds are from out-of-town. If the beach is made private, this action will relieve to a very great extent the crowded conditions which are experienced especially on week-ends and will make the area much more enjoyable for our own residents.

Our indoor recreation program is hampered greatly in its expansion by a lack of proper indoor facilities. At the present time we are using extensively our school buildings. The problems faced in conducting recreation programs in these buildings are many and our program expansion is limited in direct proportion to these problems.

A community the size of Arlington should have a Community Recreation Centre where programs in all phases of recreation can be freely conducted. We need a building in which various organizations can hold their meetings, youth programs, etc., at little or no cost to them. In brief we need a building for the recreational needs of the community such as has already been established in many towns much smaller in size and population than Arlington.

Our community is now blessed with several large playgrounds as well as small children's play areas. According to present accepted recreation standards there should be at least a small children's play area within a quarter mile of every home in the community. A survey will be made of our present playground system and recommendations will be made at a later date concerning expansion if such is deemed necessary.

## CONCLUSION

The department during the conduct of its program this year was assisted by many individuals and organizations. We are grateful to them for their support and hope that we shall be favored with their continued cooperation in the future. We

are also indebted to the various Town Boards, Department heads and their employees for their help and assistance.

To our permanent staff and temporary or seasonal employees we express our sincere thanks for their loyalty and conscientious effort throughout the year.

Respectfully submitted,

EDWARD D. BUCKLEY, *Chairman*,

EVERETT J. HENDERSON.

**REPORT OF THE TRUSTEES  
FOR THE YEAR 1948**

*To the Citizens of Arlington:*

The Trustees present the following report of the Robbins Library for the year 1948:

During the year, extensive repairs have been made in the main building. The Junior Library and Librarian's office have been redecorated, a change has been made in the lighting of the Catalogue Room, Reference Room, Small Reference Room, Junior Library and Stack Room.

Next year redecorating will be needed in the Reference Room, Small Reference Room, Rotunda, and Stacks; also some work at the Dallin Branch; for this the Trustees are asking for a Capital Outlay of \$7,000.

The Trustees, with regret, report the resignation of Mr. Warren A. Seavey due to his removal from Arlington. In November Mr. Llewellyn B. Parsons was appointed to fill the vacancy.

There has been a decided gain in the home use of books and in the use of the building by many groups which represent Arlington civic, musical and educational interests. For details see the Librarian's report.

As has been the case for several years, the library has been understaffed by trained librarians. The Trustees have tried to help this situation by adjusting salaries to attract trained people. They have worked in cooperation with the Salary and Classification Committee in setting up standards.

An appropriation of \$69,832.00 is asked for the year 1949 for current expenses.

## Report of the Librarian for the Year 1948

*To the Trustees of the Robbins Library:*

I herewith submit the report for the year ending December 31, 1948.

In the Public Library we have an agency which provides adults with information, ideas, and beauty which are essential for a full life. We have an organ of social democracy.

The public library gathers the materials needed by the residents of its community and prepares the material. In so far as its book collection reflects the needs and interest of a particular city or town, is that collection adequate.

The public library is one of the few organizations that exists to serve its patrons and not to advance a cause or sell a product.

The American public library is a community institution. It seeks to serve all interests and all groups.

The home use of books for the year was 239,317; this was a gain of 14,025 over the year 1947.

### COMPARISON OF 1947 AND 1948 CIRCULATION

Due to marriage and family responsibilities, there have been many changes in the number of library workers and staff members. Thelma Safgren resigned in October, and Marjorie Donovan in January. Several college girls have tried the work, some library trained persons who were located in this part of the country, have helped out the situation. But for the trained married women who previously were on the library staff, who can catalogue and do reference work, the library would indeed be in a plight.

The reference work, the finding of books, the making of bibliographies and special services have increased.

The desk of the main library had an increase in adult circulation over 1947 of 11,841 books. Total increase for the year 14,025. Deposits of books have been sent to church groups, Parent Teacher groups, fire stations, Girl Scout Camp and playgrounds.

The telephone is in almost constant use.

What did we do without a regular cataloguer?

Added	4,678 books by purchase
	127 " " gift
	24 " " binding
	44 lost and returned
<hr/>	
Total	4,873 added
	2,433 discarded
<hr/>	
Total	2,440 gain

The library has 80,821 books.

What of the cards to be filed, records to be made with no full time cataloguer?

1803 books were sent to the bindery.

There have been many activities for the children. Story hours were held in the Junior Library, Dallin Branch, and East Branch.

Book Week was made a special event at the Branches and Main Library. Classes with their teachers visited the library. The children were given a chance to browse at their leisure or given a talk on the books.

Mrs. Fuller and Mrs. Montague spoke before the Camp Fire Council at the Dallin Branch. Visits were made to playgrounds during the summer.

During vacation season, the Everyland Club was again organized at the Main Library and Dallin Branch. The children gathered each week for plays, talks on books, games and an exchange of hobby ideas.

The exhibition cases have at all times held many interesting things; sea shells, scout handcraft, letters and scrap books

loaned by the International Friendship League, Easter eggs and shell craft.

The circulation of books through the schools has increased. One more deposit library has been added. We now have deposit libraries at the Peirce, Cutter, Hardy, and Brackett Schools. Each library has a deposit of 600 books, a portion being changed each month. 17,659 books were circulated through the schools, a gain of 3,230 over the year 1947. 4,373 books were sent to the schools.

Several printed lists have been prepared and proved very popular, "Help for Youth Leaders" a list designed for girl and boy scout leaders, as well as church workers, "Cooking Internationally", "Read to Understand", "Books for help, study, amusement, and inspiration".

1895 new borrowers registered and 1394 cards were surrendered or expired. Total number of borrowers 18,986.

Delinquent borrowers, who failed to return books on time required the sending of 4,104 pieces of mail; in return the town received \$2,713.17 in fines, and \$179.88 for books lost and damaged.

The library mailed 3,293 reserve postals.

### SPECIAL EVENTS

Annual meeting of the Arlington Heights Study Club was held in the Dallin Branch when Mrs. Herbert Snow, who was co-chairman with Mrs. Cyrus Dallin, in behalf of the Club, presented a collection of books by Arlington Heights authors to the library. Mrs. Herbert Mead, Mrs. Powell have since added to the collection.

Two Sunday afternoons when the library was open, for a Victory tea in honor of the workers of the Red Cross Drive and a tea and exhibit of works of art planned by the Art Committee of the Woman's Club, Art exhibits of the works of the Saturday morning art classes for children and the art work done in the Schools. The gallery was also used twice for exhibits by local artists.

Staff members have attended meetings of the Charles River Club, and Mass. Library Club.

Mrs. Montague has attended all meetings of the Children's Round Table often with other members of the staff.

The Librarian received help and inspiration from the American Library Association meeting at Atlantic City.

### ACKNOWLEDGMENTS

The local press, the Arlington News, Arlington Advocate, and Press with their library publicity have shown a genuine interest and have given great assistance in making the year a successful one for the Robbins Library.

To the patrons of the library, who by their many kindnesses, helpful suggestions and with gifts of flowers and books have shown their interest, I express my appreciation.

A gift of more than passing interest was presented by Mr. George Harris, a set of seven miniature prints, fine examples of the art of illumination by the artist, Arthur Szyk.

It is with sincerity that I express my appreciation for the cooperation of my staff.

To the Trustees a thanks for their continued understanding and efforts in the attempt to solve present day library problems.

Respectfully submitted,

LUCINDA F. SPOFFORD,  
*Librarian.*

REPORT OF THE SCHOOL COMMITTEE  
FOR THE YEAR 1948

To the Citizens of Arlington:

The personnel of the School Committee for 1948 was unchanged with one exception. Mrs. Eleanor J. Strong was elected in March to fill the vacancy caused by the retirement of Mrs. Katharine W. Lacey who had given eighteen years of faithful, efficient service to the Town as a member of the Committee.

The following quotation is taken from President James Conant of Harvard University: "I believe our system of public education in this country is one of the unique features of the society we have developed on this continent. If the leading citizens of this country would spend a tenth of the time and effort on the vital problems of public education that they spend on hospitals or the discussion of foreign policy, I cannot help believing the future of this democracy would be more secure. For how our system of public education operates will affect not only the attitudes of our citizens, our future voters, but also the whole complex fabric of human relations in the days ahead."

An editorial from the Boston Globe of January 11, 1949, entitled "Schools in Need" states: "The necessity for more schoolhouses and extension of those now operating has become one of the headaches for those who watch over the finances of municipalities large or small."

Arlington is no exception since an addition to the Hardy School, which has been talked about for the past ten years, has now become a necessity. With every available room in use, including two classrooms set up in the basement, the building is occupied to its capacity of over six hundred pupils. There are four kindergartens and three rooms of each grade from the first through the fourth. This reflects the increase in school enrollment due to the number of homes built in that area the past three years. The committee will have plans and specifications to present to the annual town meeting. The Building Committee for the sorely-needed addition to the Junior High West will make their report at the same time.

The School Committee was empowered by a special town meeting of December 27, 1948, to look into the advisability of securing a school site in the Appleton Street area to relieve the crowded conditions of the Locke and Brackett Schools.

We have been given assurance that the new Morningside school will be ready for occupancy in January, 1950.

In addition, many of the buildings will require a larger outlay for repairs that have been postponed for the past seven years because of war conditions.

There was no increase in the amount of state aid to schools received during 1948. It is expected that the amount will be increased in 1949. The amount received in 1948 was \$55,623.00 and in 1949 it is anticipated to amount to \$164,297.00.

We point with pride to accomplishments completed during the year. These include the auto shop at the Senior High School, and the additional seating at the Warren A. Peirce Field. The auto shop compares favorably with any in the State and is a distinct addition to our Vocational School. A field house including sanitaries is our present need to complete our athletic field.

For further information regarding the operation of your School Department, we respectfully refer you to the report of the Superintendent of Schools.

We pay tribute to five of our teachers who retired in 1948:

Herman Gammons, principal at the Senior High School for twenty-eight years.

Bessie A. Conway, teacher in various schools of the town for forty-three years.

Martha H. Schaedel, junior high school teacher and Supervisor of Americanization for thirty years.

Edith F. Grant, elementary school teacher for twenty-two years.

Mary E. Hilton, junior high school teacher for nineteen years.

The Committee expresses its gratitude to all of them for their long period of faithful service, for their loyalty and for their valuable contributions to the educational system of Arlington. They have made a distinct contribution to the school system and a lasting impression on many of our citizens who were their pupils. We wish them many years of healthful retirement.

We express our appreciation to the school officials, teachers and employees for their loyal support. We thank the Town officials, members of boards and departments and the citizens of the Town for their cooperation.

Respectfully submitted,

(Signed) JOSEPH J. BEVINS,

## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS FOR THE YEAR 1948

To the School Committee of Arlington,

Ladies and Gentlemen:

It is my privilege to submit for your consideration the following report of the schools for the year 1948. I am including in my report excerpts from the annual reports submitted to me by various principals and supervisors.

### *State Aid to Schools:*

The enactment of Chapter 643 of the Acts of 1948 marks the first major advance of the principle of State aid in Massachusetts since 1919. State assistance has also been provided for the construction or enlargement of school buildings during the next three years. The Legislature has therefore accepted the principle of increased State aid for schools, and the way is open now to seek really adequate State funds. There is a growing realization that schools require markedly increased support, and that this greater cost demands a broader base of taxation, as increases cannot be met solely by local taxation.

### *Elementary School Enrollments:*

In 1947, for the first time in twelve years, an increase not directly attributable to the new kindergarten classes was felt; and this growth became more marked in 1948. The opening of kindergartens in 1944 raised the elementary school enrollments by 400. Kindergartens then marked the trend, increasing by 130 pupils in 1946, and by another 98 pupils in 1947. This naturally followed through into the other elementary grades; and 1948 found the total elementary enrollment swollen to 3437 pupils, an increase of 271 since 1945, at the rate of 55 in 1946, 143 in 1947, and 73 in 1948. It should also be noted that since 1943 the total enrollment in the elementary schools has increased by 596. The next ten years will see sharp increases as more children are entering our schools, and more youths are staying in school longer.

### *One-Session Trial Plan:*

In December the School Committee voted to take a survey of the interest in conducting a one-session program in the junior high and elementary schools. This action was taken

following many requests from the parents' groups in various sections of the Town. The vote of the parents in favor of a trial plan was tremendous, and consequently a school program on a one-session basis was adopted effective from January 3rd to April 1st. Parents were informed that no lunch facilities were available, and that lunches prepared at home would be eaten in the classrooms under the supervision of the teachers. School milk would be available at a nominal fee. There was concern on the part of many that the long continuous session would be a hardship for primary children. On the other hand, pupils would be subject to the hazards of the streets twice each day rather than four times. At the time of this writing the plan has been in effect for two weeks and is working smoothly. It appears acceptable to many parents and to nearly all of the youngsters. The question of the efficiency of the plan in terms of academic results is yet to be proved.

*Report of the High School Principal:*

The program of studies has been published in a small booklet attempting to describe in some detail the opportunities offered by the school and thus aid the parents and pupils in making wise choices. The subject requirements in some of the curricula have been modified to allow the Guidance Department to arrange programs to fit individual needs.

Classes in pre-flight aeronautics and in blue print reading were not formed this year because enrollment was insufficient. The classes were started during the war years as part of a pre-induction training program. Some of the blueprint reading work has been added to the requirements in mechanical drawing in which home study is now required.

For the second year band rehearsals have been scheduled as a regular class in school time. Many pupils take advantage of this opportunity to continue their musical training.

A beginning has been made in an effort to coordinate the academic work of the junior and senior high schools in the different departments under the supervision of the High School Department Heads.

The old building is greatly in need of renovation which would include repairs to floors, walls, and ceilings. Improved lighting is needed in many rooms in both buildings.

Although the Committee on Advanced Programming and Budgeting has included the finishing of the Lowe Auditorium in its future plans, may I state that it cannot now be heated sufficiently to allow it to be used during the winter months

for anything but active games. This restricts our assembly and boys' physical education programs.

May I suggest that a study be made of the possibility of converting the Lowe Auditorium into a gymnasium by placing another floor at the level of the present balcony and using the space between the floors for locker and shower rooms for both school and community activities. The school plant then could be completed by building a third wing as a community center to include an adequate auditorium and other facilities carefully planned for both school and community use.

The additional bleachers at the Warren A. Peirce Field are much appreciated. I understand that a building must be built at the field to provide sanitary facilities to comply with State Law. When such a building is built it should include locker rooms, showers, and dressing facilities for the athletic squads that use the field. This would allow two rooms which are now used as locker and shower rooms to be converted into classrooms.

One could be converted as soon as the fieldhouse facilities are ready; the other when the high school gymnasium is completed. The additional room would provide space so that the present machine shop could be enlarged to install additional necessary machines.

Fencing the entire play area at the field has greatly increased the attempts to use the school lawn as a playground. This present demand for play area, and the housing development just across Summer Street, suggest again the need for acquiring and developing the land between the field and Mill street for additional playground area.

#### *Report of Director of Vocational Education:*

The year 1948 proved to be a very challenging one to the faculty of the Vocational High School because of the desire on the part of parents and pupils for vocational courses and because of the industrial and technical advances in the various areas in our present curriculum. We have added television to the work in the Radio Department and during 1948 two seniors constructed a television set which has been used extensively by the school and exhibited throughout Massachusetts. Distribution of Army and Navy surplus radio and radar equipment by the Massachusetts Department of Education was a great factor in the enlargement of our television work.

Expansion in our automotive room is almost complete and more space in our machine room is essential to make room for the equipment which the State Department of Education has for us.

State Department standards require thirty clock hours per week, fifty per cent to be spent in the shops, the remainder in related and academic work. The Vocational High School is fast attaining the educational prestige which it should have in Arlington. In a free society such as ours there are only functional differences between manual and mental labor and educational opportunities for all of our youth should be equal.

Manual Arts in Arlington differs from Vocational Education inasmuch as it does not emphasize the specialized skills of a single trade; but rather, provides exploratory experiences in several types of industrial skills. As a result of Manual Arts experiences, the pupil should be able to: (1) choose an occupation more judiciously, (2) form an opinion of his own ability and interest in constructive activities, (3) develop an interesting and wholesome hobby, (4) choose and purchase industrial products more wisely, and (5) understand the work done by men who serve society through the application of manual skills.

*Report of the Guidance Director:*

As in the function of any phase of the education of our pupils, we must constantly examine, re-examine, evaluate and validate our techniques. Since the ultimate goal of the Guidance Department is to help each individual pupil make a proper social, educational and vocational adjustment, it has been found that one of the most satisfactory tools for making such evaluations is to conduct follow-up surveys of pupils after they leave school. Our annual one year and six year follow-up of high school graduates, as reported in the Christian Science Monitor of November 20, 1948, has drawn nationwide attention resulting in numerous inquiries from as far as California.

The one hundred per cent survey of the Class of 1948, which was conducted and tabulated by Miss Mary Barry of this Department, indicated that approximately 41% went into full-time employment, 52% are continuing their formal education, 5% enlisted in the armed services and 2% are not employed because of marriage, illness, or personal reasons. These figures are very similar to the results of the *Survey of the Class of 1947* conducted last year. It is significant to note that approximately 44% of the class each year had terminated its

formal education with high school graduation and it raises the question of whether these pupils are sufficiently prepared to assume the role of educated and well-informed citizens in our community. It is reassuring to note that 80% of the graduates of the Class of 1947 followed through on their post-graduation plans as they had determined them prior to their graduation, with the assistance of the counselors. The majority of those who did change plans were eighteen year old boys who decided to take advantage of the twelve month enlistment, which went into effect during the past summer.

Of significance in the six year follow up, which was also conducted by Miss Barry, is the fact that more than half the girls had married within the six year period and given up their previous employment. Both boys and girls, despite the intervention of the war, tended to follow through on the careers they planned in high school. Those who were content to drift and who refused to make plans, or take their future seriously while in school, were still drifting and were unsettled. The survey resulted in a number of those boys and girls returning to the counselors for help with their employment and educational problems.

The check-up with employers of graduates placed on full-time employment through the efforts of the Guidance Department was again carried out and again responses revealed that Arlington graduates trained for stenographic and clerical work, ranked high in comparison with other high school and business school graduates. During the year 1948 the Department made 446 full-time and part-time job placements. Of the graduates of the Class of 1948 who sought employment, 59.9% were placed by the Guidance Department.

During the past year at the invitation of a commercial publishing company, the Director as a co-author helped to prepare a manuscript on "Counseling the Individual Student." It is expected that this text will be published in June, 1949, and it will contain a description of the many progressive educational techniques which are practiced in the Arlington School Department.

- During the forthcoming year, the Guidance Department is planning to strengthen its job try-out program so that more pupils who are terminating their formal education with high school, may have an opportunity to experience different types of occupations before seeking full-time employment after graduation.

This Department also is planning to maintain a close follow-up of pupils who drop out of school prior to graduation

in order to help them make a satisfactory vocational adjustment.

*Junior High Schools:*

For the past few years, considerable emphasis has been placed on the development of ninth grade athletic teams made up of representatives from each of the junior high schools. These teams played against similarly composed teams of other schools and gained valuable experience which was useful when these players became members of the high school varsity teams. While this plan resulted in excellent training for a limited number, it became apparent that not enough boys were interested in joining these unified squads to warrant spending the necessary time in training them.

It has been decided, therefore, to expand the opportunities for participating in athletic sports by developing several teams in basketball, football and baseball in each school and arranging games between the teams of each school and also between the teams of the three schools, thus encouraging a large number of boys to participate. A start is being made at this time by organizing the basketball teams. The girls' basketball and hockey teams are already organized on this basis.

Gymnasium facilities are inadequate in Junior High School Center and Junior High School West. Plans are now under way which may result in an improvement of the situation.

*Report of the Supervisor of Elementary Education:*

This report will deal with one particular phase only—that of the in-service professional improvement of our elementary school teachers. Needless to say, there are many means of professional improvement and alert teachers recognize the importance of continuous study to keep abreast of recent trends and standards in education.

Since the revision of the salary schedule which requires that teachers earn at least six approved credits during each five year period in order to advance on the salary schedule, several of our teachers have qualified for that advance and others are working toward that end. There has been an effort made to cooperate with teachers in this in-service training by conducting, in Arlington, educational institutes and by offering approved courses which grant under-graduate and graduate credit at State Teachers Colleges and Universities.

In October through the cooperation of a well-known art firm an Art Workshop was carried on with hours from four

to six o'clock in the afternoon and from seven to ten o'clock in the evening for three consecutive days. Teachers were allowed one credit on the salary scale for participating in this concentrated program and were also richly rewarded by the help which they received for the improvement of their art background.

In January an "Institute for Elementary Teachers" was planned with the able assistance of Miss Alice Beal of the State Department of Education. The theme of the meeting was "Objectives of Education Basic to the Curriculum Guide." ("The Curriculum Guide for Primary Teachers" is a program developed by the State Department of Education as a suggested broad framework upon which the work of the primary grades is based.) It is a great pleasure to point to the active response of these teachers and to that of our neighbors from Belmont, Lexington and Winchester. All agreed that it was a day long to be remembered from the standpoint of educational benefits derived from the all day meeting.

Several teachers, all of the elementary school principals and the supervisor attended the summer institute at Lesley College which was directed by the State Department of Education. The three days were filled with interesting and enjoyable educational activities. We are indeed fortunate to be within easy reach of so many cultural and educational opportunities.

A forward-looking step was taken by the School Committee on becoming a charter member of the New England School Development Council. This membership, among other advantages, gives certain teachers the privilege of participating in special studies which are being carried on. A kindergarten teacher and the supervisor are taking part in the Study of Kindergartens. Working with representatives from all of New England is very stimulating and gives an opportunity to evaluate by comparisons the standing of our own school system.

At the present time, seventy of our elementary school teachers and principals are attending an outstanding course in science which is being given in Arlington by Dr. John G. Read of Boston University. The course, which deals with modern methods and materials used in the teaching of elementary science, is built around the tentative course of study which has been under preparation for two years by our efficient and willing Science Committee. Dr. Read, in addition to his lecture program, has performed many simple and interesting experiments which can be used with elementary school pupils on different age levels and has conducted demonstration les-

sons with groups of children. Also, he has evaluated the science course of study with the members of the class in the light of his investigation and experience. For two sessions of the class outside demonstrators were provided in order that he might be free to meet with the science committee as a consultant in preparing the final draft of the course. There is a distinct advantage in having courses given in Arlington as they can be adapted to our particular needs.

Probably no means of in-service professional improvement offers greater rewards than that of curriculum building. The members of the different subject committees gain much valuable knowledge through their research and thoughtful study. The committees, of which I reported last year, are still busily and cheerfully at work. It is hoped that courses, which will parallel each subject, may be offered in Arlington in the near future and that the services of an expert in each field may be secured who will clarify our efforts as has been done in the scope of science.

#### *Report of the Home Economics Department*

The Senior High School Lunchroom continues to operate under the National School Lunch Program. The main objective of this program is to improve the health of the student through more nutritious school lunches at lower cost. This is made possible by assisting schools to operate and expand the school lunch program so that they may provide food which meets from one-third to one-half of the student's daily protein requirement.

Protein is the basic material of all body tissue. It is essential to growth, health, and life itself. From twelve years of age to maturity, the protein needs of boys are higher than that of girls, and both are above the needs of a grown man. In building up the physical health and fitness of the student we build up the health of the community, and the nation.

A typical type A lunch which we serve contains the following food:

One-half a pint of whole milk

Two ounces of fresh or processed meat or substitute

Six ounces or three-fourths of a cup of raw, cooked,  
or canned vegetables

One portion of bread, rolls, or muffins

Two teaspoonfuls of butter or fortified margarine.

We took advantage of the non-food assistance offered by the program to add to our equipment a new Globe Slicing Machine.

It is our desire to employ as many time and labor-saving devices as are consistent with the operation of a modern high school lunchroom.

*Conclusion*

In conclusion, may I express to the School Committee, to all fellow workers in the department and to other town officials, my appreciation for your kind help and support.

Respectfully submitted,

(Signed) CLIFFORD R. HALL,  
*Superintendent of Schools.*

## Report of Tree Warden and Superintendent of the Moth and Town House Grounds Departments

The Honorable Board of Selectmen  
Arlington, Massachusetts.

Gentlemen:

I hereby submit my annual report as Tree Warden and Superintendent of the Moth and Town House Grounds Departments for the year ending December 31, 1948.

### TREE WARDEN DEPARTMENT

In the Spring of the year, one hundred (100) Norway Maple trees were planted in various sections of the Town to replace trees that had died, or were removed for other reasons.

An extensive program of trimming and raising up trees was carried out this year, some of it due to requests from property owners needing more light and air in their homes and others that trees were overhanging roofs and doing damage. Another reason for it was because of the high construction of moving vans and delivery trucks which would mutilate trees beyond repair if not given clearance. Consideration also was given to the Fire Department trucks that have to answer calls on streets where limbs were hanging low, and also to give clearance for our lighting system so that proper illumination could be received from lights.

Hearings were held for the removal of 11 trees of which 10 were granted and I denied after objections were received at the Public Hearing.

Trees were also trimmed and removed for the Cemetery, Park and School Department for various reasons. This work being done at the request of the respective Boards and Department Heads.

A total of 39 trees were removed this year ranging from 6 in. to 58 in. in diameter on account of either being dead, dangerous or ordered out by the Joint Board, or because of Public Hearings.

## GYPSY AND BROWN TAIL MOTH DEPARTMENTS

The regular winter work of the Department such as treating Gypsy Moth egg clusters and cutting off and burning of Brown Tail Moth Nests had to be eliminated this year because of the heavy accumulation of snow that prevented traveling around on foot for inspection. Most of the time generally allotted to this work was taken up in snow removal around the Town Hall and adjacent property.

The regular spraying schedule was carried out as usual with an extra spraying being given to Elm trees to combat the Scolytus Beetle which is the carrier of the Dutch Elm Disease.

The Japanese Beetle continues to be one of our major problems as it is in every community surrounding us, and we are making a concentrated effort to control them.

We had very few reports on Tent Caterpillar this year, but on the other hand we had a very heavy infestation of Fall Webworm which extended our spraying program much longer than usual.

For the first time in approximately six years we had an outbreak of Oriental Moths that attacked practically all of our Norway Maple trees in East Arlington but due to timely spraying, we were able to keep them under control.

The Elm Leaf Beetle was again prevalent this year, but because of the fact that we were able to get out in the early morning hours to spray streets that are heavily congested with traffic we had a minimum of defoliation.

This Department also did quite a bit of Poison Ivy spraying on roadside and in different sections where it was detected.

Progress in our spraying program was cut down considerably this year due to the advent of Parking Meters on our main thoroughfares. Automobiles are now being parked on side streets where there are no restrictions and directly under trees which requires considerable time in moving said cars.

Private property spraying was done this year when requested by the property owner who, in turn, made a remittance to the Town for the cost of the work.

This year as has been the custom in the past, all property under the jurisdiction of the Park, School and Cemetery departments were sprayed by this Department. Menotomy Rocks Park were sprayed by aeroplane by a private concern with a substantial saving to the Town and with excellent results.

A Town-wide survey was made this past year by the Massachusetts Department of Agriculture for the detection of Dutch Elm Disease. According to a report from that Department, no symptoms were found.

The motor equipment of this department was used by the Public Works Department for the removal of snow during many of the snow storms throughout the winter.

### TOWN HOUSE GROUNDS

The grounds surrounding the Town Hall and Robbins House are also cared for by the personnel of the Tree Warden and Moth Department. This work consists of general care of the lawn and the trimming and pruning of all trees and shrubbery. Because of the heavy accumulation of snow from one storm after another during the winter, much more time was spent on snow removal than usual. The heavy snow was also responsible for the breaking of a great deal of the ornamental shrubbery on the Grounds which will have to be replaced.

A watchman was again employed this year to patrol the grounds from May until November from 5:00 to 9:00 P.M. on week-days and all day Saturday and Sunday as well as holidays.

The base of the fountains on the front platform of the Hall was planted with flowers again this year as usual and many favorable comments were received about them.

The grounds were patrolled on Patriots day and Hallow'en night by the men of the Department to keep order as well as protection of the shrubbery, etc.

In conclusion, I wish to gratefully acknowledge the co-operation given me by the Board of Selectmen and its staff, the personnel of this Department and all other Departments of the Town.

Respectfully yours,

GEORGE M. DOLAN,

Tree Warden and Superintendent  
of Moth and Town House Grounds.
